FEATURES

MUSIC SERVER (LYRION)

Lyrion is the industry's gold standard for speed, reliability, and sound quality. It powers MC-DJ with a lightning-fast library, bit-perfect playback, and deep streaming service support. Your local music library and streaming services are seamlessly integrated into one unified experience.

STREAMING SERVICES

Native playback from Spotify, Pandora, TIDAL, Deezer, Qobuz, TuneIn, and many more. Amazon Music and Apple Music are supported via AirPlay 2 directly to MC-DJ or any MC-Playa.

MULTI-ROOM AUDIO

Add up to 32 MC-Playa devices around your home for independent listening or perfectly synced whole-home sound. Each MC-Playa can seamlessly synchronize for synchronized playback—or operate independently over the network using AirPlay 2 or Spotify Connect.

CONTROL INTEGRATION

Every Innovo Touch Panel 2025 includes a built-in MC-DJ control app. The system integrates natively with ELAN and Control4 whole-house systems for seamless, room-by-room control. Control via phone, tablet, touchscreen, or remote—control is always at your fingertips.

PROFESSIONAL INSTALLATION

Designed for professional installers with wired-first design and VLAN-friendly architecture. Typical projects are online in under 15 minutes with clear defaults and sensible presets. Works cleanly alongside existing control networks.

ORDERING INFORMATION
